5. RURAL ADDRESS METHODOLOGY

- 5.1 Addresses are determined at the location along a public road where the primary access is gained to the occupied building. The basic grid is derived from the Township and Range Roads. Each mile of Township or Range Roads is divided into 40m lot intervals producing 80 addressable lots. For the purpose of addressing, virtual township/range roads exist between all sections whether or not an actual road allowance exists. Each section line resets the intervals to 0. The interval numbers increase in the north and west direction. Properties on the south and east side of the roads receive an odd interval civic address number. Properties on the north and west side of the roads receive an even interval civic address number.
- 5.2 Signs shall be installed in the manner described in Schedule "A" attached to this bylaw and comply with the specifications of attached Schedule "B".
- 5.3 A written request from the landowner or occupant will be required for rural address signage relocations, and subject to the Administrator's discretion, the relocation will be at the landowner or occupant's expense.

- 6.2 The costs associated with the supply and installation of the rural address sign at the primary access to lands supporting residences or businesses with occupied buildings created *after December 31, 2021* shall be the responsibility of the property owner, occupant or developer. The rural address sign shall be supplied and installed by the Municipality for such fees as established municipal policy manual. The fees will be collected at the development permit or multi-lot subdivision application approval state, as appropriate.
- 6.3 Notwithstanding Section 6.2 above, the cost for the replacement of signs in a no-fault accident, as in the case of a motor vehicle crash, shall be that of the RM of

Marriott No. 317 and shall be performed to the standards and specifications of the Municipality. The property owner/occupant is responsible for notifying the Municipality of the damaged rural address sign.

- 6.4 The property owner or occupant shall be responsible for all costs associated with the general maintenance of the rural addressing sign or any replacement sign required.

RURAL ADDRESSING SIGNAGE INSTALLATION
